Dear Monique,
Hope you are doing fine and all is good! I miss working with you a lot!
So glad that your project will be published soon, this is so amazing!

I do not want to cause any delay to the work but want it to be "the true story" so need to review it myself and can do that real quick. also can answer any questions you might have.

please send to Noura the (15,000 words) article with any questions you want me to answer as a pdf file [or same way you sent the story].

please use the smallest font size and fewer margin and spaces so it can be printed on fewer papers I have eagle eye and this will make it easier to get it way to me.

please note that Noura is the only person that is authorised to approve anything related to me not my uncle nor any other member of my family.

Thanks for your amazing work, and looking forward to review the text.

yours
